Mission

We are an energy company.

*We concretely support a just energy transition,
with the objective of preserving our planet
and promoting an efficient and sustainable
access to energy for all.*

*Our work is based on passion and innovation,
on our unique strength and skills,*

*on the equal dignity of each person,
recognising diversity as a key value for human development,*

*on the responsibility, integrity and transparency
of our actions.*

*We believe in the value of long term partnerships with the
countries and communities where we operate bringing
long-lasting prosperity for all.*

27	Americas

Introduction

The “Base erosion and profit-shifting - BEPS” action plan promoted by the Organisation for Economic Cooperation and Development (OECD) with the endorsement of the G20 countries is designed to ensure that taxable income of multinational enterprises (MNEs) is apportioned to the jurisdictions where their economic activities are occurring proportionally to value generation. “Base erosion” means the reduction in a country’s overall tax revenues as a consequence of “profit shifting” i.e.: the artificial contractual arrangements under which MNEs move profits from one tax jurisdiction to another in order to minimize income tax payments.

Eni adheres to the principles of the OECD’s BEPS project and the Group’s tax strategy as approved by the Eni’s Board of Directors on May 24, 2018 fully uphold those principles. Management decisions are driven by industrial and commercial objectives, and tax considerations support the achievement of those objectives. Eni does not engage in “aggressive tax planning”, which consists in setting up artificial company schemes that are purely tax-driven, or in transactions lacking economic substance and designed to obtain unfair tax advantages. The Group’s core hydrocarbon exploration, development and extraction business, which generates almost all of the income taxes incurred by Eni, is subject to taxation in the countries owning oil and gas reserves and where the Group oil&gas operations are carried out, in accordance with local contractual provisions and tax rules. Therefore, Eni fulfils its tax obligations in the countries where the Group’s economic activity is pursued and where value is generated.

The BEPS Action Plan developed by the G20 countries and by the OECD is divided into 15 action points. Action 13 (Transfer Pricing Documentation and Country-by-Country Reporting) requires MNEs to prepare a “BEPS Country-by-Country Report” (CbC Report) presenting a MNE’s group allocation of income, taxes and business activities on a tax jurisdiction-by-tax jurisdiction basis. The CbC Report is a tool enabling tax administrations to undertake risk assessment and is forwarded by the tax administration of the MNE’s ultimate parent company to all tax administrations which have signed an agreement to exchange such reports, where the Group is currently conducting its operations.

In Italy, in accordance with Law no. 208/2015 as enacted by Ministry of Economy and Finance Decree 23/2017, Eni has to submit a CbC Report to the Italian Tax Agency in each fiscal year. This submission has to conform to the reporting template approved by the OECD. Although Eni does not have any obligation to share this information with the market and the public, the Board of Directors has decided to publish its CbC Report from fiscal year 2017, in the belief that this will enhance transparency and make a wide reach of stakeholders knowledgeable about this matter. In elaborating the data, certain assumptions have been adopted to help stakeholders gain more insight about the report. These have been described in the reporting criteria presented hereinafter.

Eni Group organizational structure

1. *Subsidiary undertakings*

As at December 31, 2018, the Group was structured in the following way:

		Italy	Outside Italy
Subsidiary undertakings	213	36	177
Exploration & Production segment	139	10	129
Other business activities	74	26	48

The 129 foreign subsidiary undertakings engaged in the Exploration & Production (E&P) segment are participated by three international holding companies owned by Eni SpA: Eni International BV, a company incorporated in the Netherlands, Eni Investment Plc, a company incorporated in the UK and Eni Petroleum Co Inc., an operating holding company incorporated in the USA.

These 129 subsidiary undertakings engage in exploration, field development and extraction of hydrocarbons in 43 countries where hydrocarbons reserves are located. Operations are based on concessions awarded by governments or on production sharing contracts with governments or state-owned petroleum companies. These contracts apportion the volumes of hydrocarbons produced between the Eni subsidiaries and the government/state-owned entities according to variable schemes. Therefore, the amount of taxes is totally unrelated to the jurisdiction in which the Eni subsidiary is incorporated or resident for tax purposes. E&P subsidiaries can be incorporated in the countries where they operate, or can have their tax jurisdiction in another country and conduct operations through a permanent establishment (PE), whose income is subject to taxation in accordance with the tax laws of the country where operations are carried out.

The breakdown by jurisdiction of the 129 E&P subsidiaries incorporated outside Italy is given below.

- 66 subsidiaries are incorporated in the countries where they operate or act as holding companies; many non-OECD countries require legal entities to be incorporated under local law in order to qualify for mineral rights and petroleum contracts.
- 63 subsidiaries are conducting operations in hydrocarbon reserve-rich countries through PEs and are incorporated elsewhere, mainly in the Netherlands, in the UK and in Italy. Eni does incorporate a legal entity in a jurisdiction other than that where operations are located, with aim to standardize certain aspects of corporate governance across Group subsidiaries as in the case of the ability to hold corporate documentation and records in the English language and to prepare financial statements in US dollar, which is the currency generally adopted in the oil and gas sector.

With regard to Eni's other business activities – sale of gas, power and LNG, refining and marketing of petroleum products, production and sale of chemical products, and business support services, in particular finance and insurance – those outside Italy are conducted mainly in Europe, through local subsidiaries. There are 48 of these local subsidiaries: 8 subsidiaries in Gas & Power, 18 subsidiaries in Refining & Marketing, 11 subsidiaries in Chemicals, and 11 subsidiaries in "Corporate and other Activities" segment, 4 of which provide financial services to the Group companies. The foreign operating subsidiaries mainly engage in marketing and distribution activities (26 subsidiaries); 14 subsidiaries engage in manufacturing activity.

Amounts for all the 213 Eni subsidiaries as at December 31, 2018, are included in the CbC Report below.

2. Joint operations

Eni participates to 12 joint operations that are recognized in the Group's consolidated financial statements — prepared under IFRS — by applying the proportional consolidation method based on Eni's working interest in each venture. 5 of these joint operations are incorporated outside Italy. Among the Italy-based joint operations, Mozambique Rovuma Venture SpA engages in petroleum operations in Mozambique where development is underway following the final investment decision ("FID") made to exploit the large offshore Coral gas discovery in the portion of Area 4 exclusively owned by the Area concessionaires, whereas pre-FID activities are underway at the other large Mamba gas discovery which reservoir extends to adjoining Area 1 owned by other concessionaires.

Amounts for Eni's joint operations as at December 31, 2018, have been included in the Eni Group CbC Report based on the same consolidation method as in the Group consolidated financial statements for IFRS purpose.

3. Low-tax jurisdictions

As at December 31, 2018, Eni retained control over 10 subsidiaries, which were resident or had PEs in countries or territories that can be classified as "Low-Tax Jurisdictions" under Italian law. According to Italian tax rules, countries or territories offer a preferential tax regime when their nominal tax rate is lower than 50% of that current in Italy (27.9%; Italian corporate tax rate – Ires 24%; Italian regional income tax – Irap 3.9%). Of the above 10 companies, 8 companies became part of the Group following acquisitions in the upstream segment over the last decade (particularly Lasmo Plc and Burren Energy Plc groups). The tax regime applicable to these entities is the following:

- 6 entities are subject to taxation in Italy and for this purpose they are included in the tax return presented by the parent company Eni SpA;
- 4 entities are taxed in accordance to the tax rules of the jurisdictions of residence due to the waiver obtained from the Italian tax administration based on the level of taxation which they are subject to locally.

Basis of presentation

Different reporting criteria vs. the report "Payments to Governments"

The reporting criteria of the CbC Report are slightly different from those adopted in the preparation of the "Payments to Governments Report¹", which Eni is required to prepare and to publish in accordance with the reporting obligations on the extractive industries set by Directive 2013/34/EU (the EU Accounting Directive), as enacted in the Italian law by Legislative Decree N° 139 of August 18, 2015.

In non-operated petroleum contracts, the item "cash taxes paid" reported in the CbC Report includes the share of cash taxes paid by the operator on behalf of Eni to the host jurisdiction, which are charged to Eni through a partner billing process (cash calls); whereas in contracts where Eni is

¹ The report is available at Eni's web site www.eni.com

operator, only the Eni's share of cash taxes is reported even though Eni in its capacity as operator is due to fulfil the obligation to pay to the host country 100% of the due amounts of taxes (Eni's share of taxes and that of its partners, which is refunded to Eni through a partner billing process). In this respect, the CbC reporting criteria differ from the ones adopted in the "Payments to Governments Report", where Eni is required to disclose only direct payments made by Eni to host Governments, which are reported at 100% in operated contracts. Below a summary of the main differences between the two reports is presented:

➤ Country-by-Country

- Income tax payments reported by subsidiaries and joint operations relate all of Eni's businesses;
- Payments of current income taxes are recorded based on Eni's share, therefore:
 - where Eni, acting as a project operator, makes tax payments also on behalf of other project partners, only the Eni's share of payments is recorded;
 - where Eni is a project follower and therefore does not make any tax payments, Eni's share of the payments made by the operator on behalf of Eni is recorded.

➤ Payments to Governments

- Income tax payments reported by subsidiaries and joint operations regard only the upstream business;
- Payments of current income taxes are recorded by the entity that makes them directly, therefore:
 - where Eni, acting as a project operator, makes tax payments also on behalf of other project partners, the full amount of each payments is recorded;
 - where Eni is a project follower and therefore does not make any tax payments, Eni does not record any payments.

Reporting MNE and constituent entities

The constituent entities are all the subsidiary undertakings controlled directly or indirectly by Eni SpA, which is the ultimate parent company of the Eni Group. Eni SpA has an obligation to transmit the data provided in this report to the Italian Tax Agency. The data in this report are those of the companies included in Eni SpA's consolidated financial statements, prepared in accordance with international financial reporting standards (IFRS), and those of certain subsidiaries excluded from consolidation because of immateriality or their consolidation does not entail any effect on the Group consolidated results of operations. Furthermore, this report includes the data for proportionally-consolidated entities (joint operations) in line with the accounting provided by the IFRSs. In 2018 Eni closed a merger transaction involving its fully-owned subsidiary Eni Norge and the Norwegian company Point Resources controlled by the private equity fund HitecVision, resulting in the establishment of a jointly-controlled entity named Vår Energi, participated by Eni and HitecVision with interests of 69.6% and 30.4%, respectively. The new joint-venture took over the tax positions of the merged companies with effect from January 1, 2018. Therefore, amounts relating to the former subsidiary Eni Norge have been excluded from the present Country-by-Country report also considering that Eni Norge did not prepare any financial statements for the year 2018, whereas, Eni's consolidated financial statements included the accounts of Eni Norge till the date of the loss of control occurred December 31, 2018, recording to that date revenues, income before taxation and taxes amounting to €2,304 million, €1,233 million and €119 million, this latter on a cash basis.

Treatment of permanent establishments

The data for branches and PEs of the constituent entities are reported by reference to the tax jurisdiction in which the PE is located and operates and not by reference to the tax jurisdiction of residence of the legal entity of which the PE is a part. Residence tax jurisdiction reporting for the business legal entity of which the permanent establishment is a part exclude financial data related to the permanent establishment.

Source of data

The data presented in this report, which have been aggregated on a tax jurisdiction-by-tax jurisdiction basis, have been sourced from the separate financial statements of the local Group subsidiaries. Differences between local GAAP and the IFRS used to prepare the Group's consolidated financial statements are deemed to have a negligible impact on the financial amounts disclosed in this report.

Reporting period

The reporting period is the fiscal year 2018 of the parent company Eni SpA, which is the calendar year.

Structure and content

This report shows a table for each of the tax jurisdictions in which the Eni Group operates. The amounts in each tax-jurisdiction table have been obtained by aggregating amounts sourced from the local financial statements of all the Eni subsidiaries that are tax residents in the jurisdiction or operate there through a PE. The data for each PE have been taken from the accounting records of the subsidiary of which the PE is a part, separating them from data related to the head office or other PEs of the subsidiary.

Content of each country table

The following aggregate data are given for each tax jurisdiction:

• Total revenues

The revenues column shows the total revenues generated in the year by all the Group constituent entities resident in the tax jurisdiction or operating there through a PE. It is furnished the breakdown of revenues generated by transactions with unrelated parties and by inter-company transactions, even within the same tax jurisdiction. Revenues include all positive income items, e.g. revenues from sales of products and services, royalties from industrial patents, interest income, gains from the sale of plant, property and equipment, intangible assets and equity investments and unrealized profits (such as the fair value of derivatives held for purposes other than hedging). Inter-company dividends are excluded from revenues. Furthermore, in earlier application of the recently-issued guidance from the OECD set to be effective to all reporting fiscal years of MNE groups commencing on or after January 1, 2020, there are also excluded from revenues any amounts representing all or part of the profit of another constituent entity in such jurisdictions where the equity-accounting of intercompany shareholdings is permitted. Gains recognized in comprehensive income are also excluded.

• Profit (loss) before income tax

This column shows the sum of the pre-tax profits and losses recorded in the year by all the constituent entities resident in the tax jurisdiction or operating there through a PE.

In earlier application of the recently-issued guidance from the OECD set to be effective to all reporting fiscal years of MNE groups commencing on or after January 1, 2020, consistently with the reporting criteria applying to revenues, pre-tax profits of the Group constituent entities are stated net of inter-company dividends and of any amounts representing all or part of the profit of another constituent entity. This treatment is aimed at achieving greater alignment between cash taxes and locally-generated profits, because the above mentioned dividends and profits are excluded from

taxation in the recipient's residence tax jurisdiction or are subject to a minimal tax rate as in the case of Italy² due to their being paid out of earnings that have been taxed in the tax jurisdictions where they have been generated.

- **Income tax paid (on cash basis)**

This column shows the income tax paid during the year by all the constituent entities resident or operating through a PE in the relevant tax jurisdiction. Taxes are reported on a cash basis and include taxes paid by the constituent entities to the residence tax jurisdictions and to all other tax jurisdictions. In this respect, they include withholding taxes paid by other Group entities on payments to the constituent entities in the jurisdiction, as in the case of the provision of intercompany services.

- **Income tax accrued (current year)**

This column shows the accrued current tax expense recorded on taxable profits or losses of the reporting year, recorded by all the constituent entities resident or operating through a PE in the tax jurisdiction. It does not include deferred tax assets or liabilities, or provisions for uncertain tax liabilities.

Reconciliation between accrued current tax expense of CbC report and income taxes recorded in the Eni consolidated financial statement

(€ million)	2018
Accrued current tax expense (CbC report)	5,142
Accrued current tax expense – Eni Norge	253
Net deferred taxes and provisions for uncertain tax liabilities	575
Income taxes of consolidated profit and loss account	5,970

- **Taxes in-kind**

With regard to extractive activities, taxes both paid and accrued include in-kind volumes due by Eni to local tax authorities as part of production sharing agreements "PSAs", whereby tax obligations in charge of the international oil company are settled by a national agency or corporation out of the production entitlement (profit oil) of the international partner. The monetary value of those payments is determined based on market prices in accordance of applicable provisions of each PSA.

- **Stated capital**

This column shows the stated capital of all the constituent entities resident in the tax jurisdiction. In the case of each PE, the stated capital is reported in the jurisdiction where the legal entity of which it is a part is tax resident.

- **Accumulated earnings**

This column shows the accumulated earnings of all the constituent entities resident in the tax jurisdiction. In the case of each PE, accumulated earnings are reported in the jurisdiction where the legal entity of which it is a part is tax resident.

² In Italy, inter-company dividends are taxed up to 5% of their gross amount, which is subject to the corporation statutory tax rate, resulting in a 1.2% levy.

- **Number of employees**

This column shows the total number of employees employed at the end of the fiscal year by all the constituent entities resident or operating through a PE in the relevant tax jurisdiction. OECD guidelines for the preparation of the CbC report allow to include in the number of employees the independent contractors participating in the ordinary operating activities of the MNE. On this basis, Eni reports as employees the number of independent contractors in those countries where it is particularly significant. In certain extractive initiatives, Eni and the host Country agree to assign the operatorship of a given initiative to an incorporated joint venture, a so-called operating company. The operating company in its capacity as the operator is responsible of managing extractive operations with own personnel. Those operating companies are not controlled by Eni. Libya, Egypt, Kazakhstan and Algeria are the most important countries of Eni presence where the number of employees also includes the Eni share of the number of employees hired by local operating companies. The Eni share is determined by reference to Eni's participating interest in the share capital of those operating companies.

- **Tangible assets other than cash and cash equivalents**

This column shows the sum of the book values of all the tangible assets of the constituent entities resident or operating through a PE in the tax jurisdiction. It excludes intangible assets and all financial assets (shares, securities, receivables, derivative assets, etc.).

- **List of all the constituent entities of the Eni Group included in each aggregation per tax jurisdiction.**

The report lists the names of all the legal entities resident or operating through a PE in the relevant tax jurisdiction. In the case of each PE, the tax jurisdiction of residence of the legal entity of which it is a part is also reported. The name of the tax jurisdiction under whose laws a constituent entity is incorporated or organized has also been reported in those rare circumstances where it is different from the tax jurisdiction of residence.

- **Business activity**

The main business activity is indicated for each constituent entity operating in the relevant tax jurisdiction.

- **Eni business area**

The Eni business segment is indicated for each constituent entity operating in the relevant tax jurisdiction.

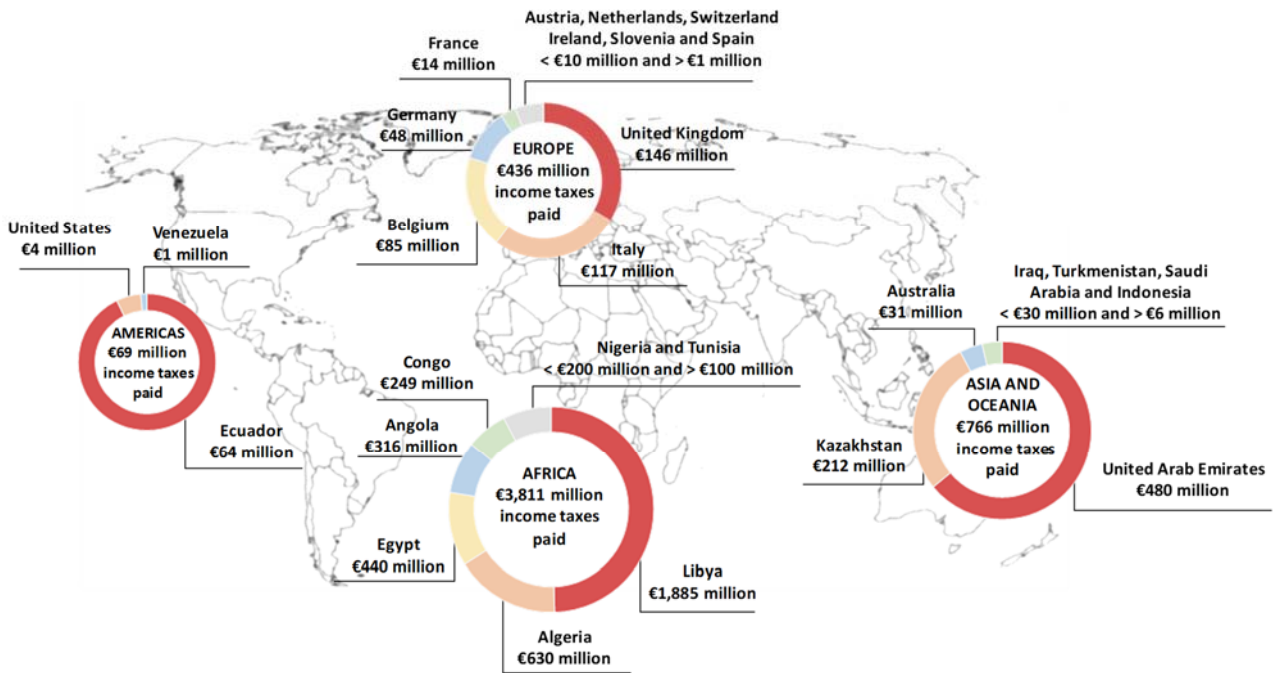

Reporting currency

The reporting currency is the euro. Amounts are stated in thousands of euros. Amounts reported in currencies other than the euro have been translated into euros at the average exchange rate for the fiscal year.

Materiality threshold

Amounts lower than €1,000 have not been reported.

The following chart summarizes the tax contributions made by Eni Group in the countries where it operates in 2018.
