

# 2011/2012 academic year

Promoted by:  
**eni exploration & production**  
in collaboration with:  
**eni corporate university**  
Politecnico di Torino

## master of science in petroleum engineering

The **eni Project** offers international students the possibility to receive a scholarship and other benefits to graduate from the Politecnico di Torino attending a Master of Science program in Petroleum Engineering.

The project, promoted by the Politecnico di Torino and financed by **eni exploration & production** and **eni corporate university**, will offer for the 2011/2012 academic year scholarships to international students, mainly from countries of interest for **eni**.

The length of the course is 2 years full time and corresponds to 120 ECTS credits. All the courses are entirely held in English. The activities will begin in September 2011.

### requirements

To be eligible for admission in a Master of Science Course, first you must hold a degree (Bachelor) awarded by an accredited foreign university after minimum 15 years of global schooling (including primary school, secondary school and university). In order to be admitted into the Master of Science in Petroleum Engineering, applicants must be in possession of a university degree equivalent to a Bachelor of Science degree of four years.

Application is open to students who:

- are not Italian citizens
- are not older than 32 years (by 31/12/2011)
- have an adequate knowledge of the English language, preferably demonstrated by an international certification
- are not already enrolled at the Politecnico di Torino before the 2011/2012 academic year
- are not recipients of other scholarships, Italian or foreign.

### scholarships

selection criteria

Applicants will be selected based on their previous academic career and on their Curriculum Vitae.

Amount of the scholarship

- The gross amount of the **eni Project** scholarship is 10.000 Euro per year (20.000 Euro for the complete period). The exact net sum is dependent upon the individual tax conditions of each student, which can be verified only upon the arrival of the student.
- The amount of the scholarship will not be increased in case the student will need more time to graduate than indicated.
- The allocation of the scholarship is dependent upon the submission, within 10 days from the arrival in Italy of the student, of the original documentation, which must correspond with the documentation attached to the online form (see the "Selection outcomes" section below).
- Payment of the scholarship occurs periodically. The first instalment is dependent upon the possession of the relevant documentation (residence permit, Italian fiscal code, and bank account in the name of the scholarship recipient), all obtainable upon arrival in Italy; for this reason, the first instalment is not paid at the moment of arrival at the Politecnico di Torino, but in the course of the following month.

### requirements to maintain the scholarship

- Given that it is not possible to combine the benefits received from more than one scholarship, students who are assigned another study grant while receiving the **eni Project** scholarship must promptly notify the Politecnico di Torino.
- Payment of the scholarship will be suspended if the academic performance of the recipient does not meet required standards.

### how to apply

To apply, students must, under the penalty of being excluded from the selection process:

**Complete the online application form.**

- **Deadline:** 9 p.m. (Italian time) on **June 30<sup>th</sup>, 2011**.
- **Method:** fill in the Politecnico di Torino online application form [http://apply.polito.it/index\\_en.html](http://apply.polito.it/index_en.html) by first registering and providing your biographical information, logging in and choosing your level and degree course, and subsequently submitting the application. Students must also provide information on their previous educational career, language abilities and work experience, and they must attach the necessary documentation in pdf format. After having completed these steps, the application for a scholarship will be considered complete.

**The following documentation must be attached in pdf format to the online application form:**

1. An official transcript (original or authenticated copy) issued by the registrar of your university of origin containing ALL of the following information:
  - planned duration of the program of study (no. of semesters)
  - total number of exams sustained in the program of study
  - total number of credits obtained in the program of study (if available)
  - year of enrolment
  - a list of the exams already taken with the score of each exam and, where applicable, the number of credits earned with each exam.
  - the overall average score of the exams taken (at the moment of application)
  - a list of the exams still to be passed to complete the degree course
  - the grading system used with explanations (e.g. quantitative system from 0 to 10, with 5 corresponding to satisfactory; or qualitative system ABCD, with A as top grade and C corresponding to passing)
  - the semester of enrolment at the moment of the presentation of the application (e.g. "on xxx [day] the student is enrolled in the second semester of the fourth year of the degree course in xxx")

If the transcript provided by the students' registrar does not contain ALL of the above information, an additional document will have to be sent that provides it. This additional document must be signed by an authority of the university of origin (Tutor of the degree course, Dean, etc).

2. Curriculum Vitae, dated and signed (in English if possible) - maximum 3 pages
3. Letters of reference (2 maximum)
4. A personal introduction letter (written by the applicant)
5. Optional English language certificate

The above documents must be rendered in English, French, Spanish, Portuguese, or Italian.

**We emphasise that the data shown in the documents must coincide with those inserted in the online application form. Moreover, failure to attach even one of the above documents will result in exclusion from the selection process.**

### selection outcomes

Following the closure of the online application form, the applications will be assessed by **eni exploration & production** and **eni corporate university**, which will select the students eligible for the participation in the program.

The applications of the eligible students will be then evaluated by a special joint commission between Politecnico di Torino and **eni corporate university**, which will award the scholarships on the basis of the applicants' previous academic career and Curriculum Vitae.

### facilities

Tuition fees for **eni Project** students are covered by the project. Scholarship recipients, together with the Master of Science in Petroleum Engineering course, will benefit from:

- one round trip air ticket from/to home country per year
- an intensive Italian language course, compulsory and free of charge
- advice on lodging facilities, additional services offered to the student community (access to the Politecnico's libraries and computer laboratories, WI-FI (wireless LAN), etc.); scholarship recipients will also be entitled to all the services offered by the regional university student assistance organisation, Ente regionale per il Diritto allo Studio Universitario (EDISU Piemonte) at full fee: students canteen service, cultural and recreational activities, sports activities, libraries with lending service, etc. (for further information visit the Politecnico di Torino Campus Facilities section)
- assistance in obtaining an entry visa. For more information consult the Immigration Requirements section and the websites of the Italian Embassy or Consulate.
- assistance by the Stage and Job Placement Office for internship and employment.

**In order to benefit from a reduction on the fees of the services offered by EDISU, students must provide an official declaration about:**

- the composition of their family unit
- the revenue generated abroad in 2010
- the property and real estate assets generated abroad at December 31<sup>st</sup>, 2010

These declarations, issued by the competent authorities of the foreign country where the family's income is generated, must be translated into Italian and certified by the Italian Embassy or Consulate.
