enipower

eni

Production capacity

CTE 3: electricity: 1179 MWe – Steam: 120 t/h
 CTE Nord: electricity: 151 MWe – steam: 385 MWt

Plant type

CTE3: three combined cycles with natural gas, two of which are also adapted for off-gas use
 CTE Nord: four turbines for steam recovery from the plant cracking

Year the combined cycles became operational

2005

Fuels

Natural gas
 Petrochemical gas

Products

Electricity
 Technological steam

Other services and products

Desalinated and demineralised water

Eni companies served at the site

Versalis and Eni Rewind

Address

via Fermi, 4 - 72100 Brindisi (BR)
