

Eni recognised at first Italian “EY Risk Transformation Awards”

Milan, 12 June 2024 - Following the inaugural Italian “EY Risk Transformation Awards”, which honor outstanding companies in risk management, Eni has been ranked first in the “Corporate Compliance” category.

The “EY Risk Transformation Awards,” in their first Italian edition, were held in Milan as part of the Global Risk Forum 2024. EY, a global leader in audit and accounting, tax and legal assistance, transaction and consulting services, recognizes companies through these awards for their innovative approach to risk management by transforming risk into a strategic opportunity. The event reiterates the importance of internal control and risk management functions, which are taking on an increasingly decisive and strategic role in achieving business targets.

The award was decided by an independent panel, formed by representatives of the academic and institutional world, who evaluated Eni's commitment to research and development of innovative and integrated solutions in the field of Compliance. In particular, the panel appreciated that Eni chose to establish a dedicated integrated compliance structure as far back as 2016, reporting directly to the CEO, thus demonstrating a proactive and avant-garde approach in this area.

Luca Franceschini, Integrated Compliance Director, Eni said: *“Eni has long been committed to highlighting the fundamental role of compliance and ethical issues in business management. This has been made possible by the establishment of an integrated compliance function, as well as the contribution of all our colleagues in fostering a culture of ethical compliance and responsibility within the company. EY’s recognition has added to this year’s achievement of ISO 37301:2021 certification, confirming the reliability of the compliance model that we have adopted. We are proud of the work done so far and will continue to promote the values of integrity and transparency across the business.”*
